## WELCOME

Our mission is to provide a breathtaking therapeutic experience that offers clients a warm and safe reprieve from the stress of daily life.

MassagEscape is a business that has several modalities so clients have more to choose from. We offer packages that cater to career individuals such as computer professionals, office workers, busy-bodies and of course career alumni... seniors. These people typically have very specific focus areas that are in dire need of a little TLC from a licensed massage therapist.

Call Massagescape today to schedule an appointment (505)259-8377 because your body needs our hands!

## SERVICES

Here at MassagEscape we like to make the most of time spent with clients by listening to the body and responding with the appropriate treatment. If there is a specific modality you prefer or time constraints, we will do our best to accommodate your needs. People who are busy are often in need of a quick massage during a lunch hour. Specials are also offered for different circumstances to encourage new and repeat customers to treat their body and spirit to a healthy reward!

**SWEDISH MASSAGE**  
A systematic and scientific manipulation of the soft tissues of the body for the purpose of establishing and maintaining good health. 55

**THIRTY MINUTE FOCUS**  
If you only have time to focus on a specific problem area, we can spend the entire 30 minutes concentrating on one area of the body. 30

**DEEP TISSUE MASSAGE**  
Uses many of the same techniques and movements as Swedish massage, but much more pressure will be applied. This work releases chronic muscle tension or knots that lie in the deeper tissue. 65

**TRIGGER POINT THERAPY**  
Deep work that focuses on hypersensitive areas found in the muscles that are associated with palpable nodules. Compression of a trigger point may help extract the pain. 60

**SHIATSU THERAPY**  
Finger pressure applied along meridian lines and tsuabos to assist Qi flow in the body, mind, and spirit. Shiatsu calms an overactive sympathetic nervous system. Meaning it can improve circulation, relieve stiff muscles, and alleviate stress. 55

**HYDROTHERAPY**  
The internal and external therapeutic use of water and complementary agents. 60

Hydro Collator Packs  
Salt Glow  
Ice Massage  
Paraffin Wax

**MYOFASCIAL THERAPY**  
This manual technique helps to eliminate pain and increase range of motion by manipulating the fascia with various techniques. This allows the connective tissue fibers to reorganize themselves in a more flexible and useful manner. 55

**PREGNANCY MASSAGE**  
Swedish massage that caters to pregnant women. The woman to be will be properly positioned and supported by pillows and padding for safety and comfort. 55
